

Privacy Policy

SnapNotes · Last updated: 12 April 2026

1. Introduction

SnapNotes ("the App", "we", "us", or "our") respects your privacy and is committed to protecting your personal data. This Privacy Policy explains how your information is handled when you use SnapNotes on iPhone, Apple Watch, and related Apple platforms.

SnapNotes is designed with privacy in mind. Wherever possible, data is processed locally on your device.

2. Data Controller

Data Controller	Rob Haertel
Contact	rob@haertel.nl
Country	Netherlands

3. Data We Collect

3.1 Notes Content

- Notes you create (text, dictated content).
- Reminder-related information linked to notes.

Where stored: Locally on your device. Optionally synchronized between your devices using Apple-provided services (see section 4). We do not access or read your notes.

3.2 iCloud Synchronization (Optional)

If iCloud is enabled, notes and related metadata are synchronized via Apple iCloud. Synchronization is fully managed by Apple. SnapNotes does not operate its own servers for note storage.

3.3 Reminders & Notifications

If you enable reminders, the App schedules local notifications on your device. Notification content may include note titles or excerpts. No notification data is transmitted to SnapNotes servers.

3.4 Analytics

SnapNotes does not collect analytics, tracking data, or usage statistics.

3.5 Crash Data

Crash reports may be collected by Apple through their platform services. This data is handled according to Apple's privacy policies.

4. Third-Party Services

SnapNotes relies only on Apple system services:

- iCloud (for synchronization, if enabled)
- Apple Notifications (for reminders)

SnapNotes does not integrate third-party SDKs, advertising networks, or tracking frameworks.

5. Legal Basis for Processing (GDPR)

Where applicable under the GDPR, data is processed on the following bases:

- User consent (e.g. enabling iCloud sync or reminders)
- Contractual necessity (providing core app functionality)
- Legal obligation (where required)

6. Data Retention

- Notes are retained for as long as you keep them.
- Deleting a note removes it from the App and, if applicable, from iCloud.
- Uninstalling the App removes all locally stored data.

SnapNotes does not retain backups of your data outside Apple services.

7. Data Sharing

We do not sell, rent, or share your personal data with third parties. Data is only shared:

- With Apple, when using Apple system services
- When required by law

8. User Rights (GDPR)

If you are located in the European Economic Area (EEA), you have the right to:

- Access your personal data
- Correct inaccurate data
- Delete your data
- Restrict or object to processing
- Data portability
- Withdraw consent at any time

Because SnapNotes does not operate its own servers, most data control is exercised directly through your device and Apple ID settings.

9. Children's Privacy

SnapNotes is not intended for children under the age of 13. We do not knowingly collect personal data from children.

10. Security

We take appropriate technical and organizational measures to protect your data, including:

- On-device storage

- Apple-provided encryption
- No custom backend infrastructure

11. Changes to This Policy

This Privacy Policy may be updated from time to time. Any changes will be reflected by updating the "Last updated" date.

12. Contact
